

What Living Things Need Game Instructions

Teacher Instructions:

Divide the children up into groups of between 2 and 6.

You will need one pack of cards per group.

The aim of the game is to collect one or more complete sets of cards showing a living thing and everything it needs to survive.

Pupil Instructions:

Deal out all the cards so that every player gets an equal number of cards.

The dealer starts by asking another player for a card needed to complete a set. If the other player has the card they must give it to you. You may continue asking for cards until you ask for a card the person doesn't have. When this happens the player who was asked for his card takes his turn to request cards. You may ask any player in the group for a card, it's up to you to decide who you think has the card you need! You can even retake the cards taken in the previous round. When a player gathers a complete set he must put the 6 cards face down on the table in front of him. The player who collects a complete set first is the winner!

Living Thing	Nutrition	Shelter	Water	Oxygen	Sunlight
Horse	Grass	Stable	Water	Oxygen	Sunlight
Tree	Soil	Larger Tree	Water	Oxygen	Sunlight
Clown Fish	Plankton	Coral Reef	Water	Oxygen	Sunlight
Spider	Fly	Spiders Web	Water	Oxygen	Sunlight
Human	Bread	House	Water	Oxygen	Sunlight
Bee	Flower	Bee Hive	Water	Oxygen	Sunlight
